A \$48 value!

Get Ready for the 2008 NEC

Nearly 4,000 changes were proposed for the 2008 NEC®! 300 of them will have a significant impact on designing, installing and inspecting electrical systems. Keeping up with the NEC should be the goal of all those involved in the safety of electrical installations. This includes electrical installers, contractors, owners, inspectors, engineers, instructors, and others concerned with electrical installations.

Erie Bearings is proud to bring you one of the nation's most recognized experts on electrical training, Mike Holt. Mike's dynamic and animated teaching style is relaxed, direct, and fun. This is your chance for an in-depth examination of the most important NEC changes. You can't afford to be "in the dark" because many of these changes will significantly alter the cost of business!

Space is limited. Sign up today!

Mike Holt has been an active member of the International Association of Electrical Inspectors, National Board of Electrical Examiners, National Fire Protection Association, National Association of Licensing Boards, Florida Association of Electrical Contractors, and the Electrical Council of Florida.

He has been certified as an Electrical Inspector, Journeyman Electrician, Master Electrician, Certified Electrical Contractor and Instructor.

Mike is committed to the electrical industry and is recognized, as one of America's most knowledgeable and dynamic electrical educators. His motivational teaching style has given confidence to thousands of electricians who have passed their exams "the first time." His development of educational products that are interesting as well as technically correct has brought his name to become synonymous with quality education. His dedication to electrical training is the result of his own struggles as an electrician looking for a program that would help him succeed in this challenging industry.

He has taught over 1,000 classes on over 40 different electrical related subjects to over 20,000 students. Mike teaches seminars throughout the United States and abroad for individuals, organizations and Fortune 500 companies, such as IBM, Boeing, Motorola, AT&T, etc.
