- Anyone in the electrical and engineering industry looking to develop their business management skills.

Earn CEUs and PDHs

We're approved for continuing education in many states. If you need this seminar for continuing education or professional development credit, contact Ilene Aguado at 888-NEC-CODE (632-2633) to find out if your state has been approved. **This seminar is approved for 14 Hrs for the State of Florida.**

2008 Safety Seminar

NFPA 70E is always such a desired topic at our seminars we decided to extend our usual 1 hour devoted to this subject and offer an extended NFPA 70E Electrical Safety in the Workplace Seminar.

Join us for this special seminar that will take place after our normally scheduled Friday Business Management, Workplace Safety and Workers' Comp seminar in June and July.

3 Hours - Friday, June 6 or Friday, Aug 1
only \$10.!!

About Your Presenter—Mike Holt

Mike is nationally recognized as one of America's most knowledgeable electrical trainers. His instruction has helped tens of thousands of electrical professionals ensure the proper design and installation of electrical systems in accordance with the NEC. His dynamic and animated teaching style is relaxed, direct and enjoyable. Mike's best quality is his ability to communicate technical topics in an easy-to-understand manner.

Seminar Fee – Save \$67.

Register for both days **Only \$350.**

Or register for a single-day seminar for \$195.

An early 30-Day registration discount includes one CEU certificate, and copy of *Mike Holt's Illustrated Guide to Grounding versus Bonding 2008*. The fee is subject to change and is payable in advance.

Special Requirements based on Use and Occupancy

General Building Height and Areas

Types of Construction

Fire Resistance Construction

Interior Finishes

Electrical Requirements

Instructors

Find out more about our 2-Day Instructor Conference which immediately precedes these Continuing Education Seminars by contacting Sarina. Sarina@MikeHolt.com • 866.632.2633

Day 2 - Saturday

June 7, 2008 – Orlando or

Aug 2, 2008 – Coral Springs

Grounding versus Bonding

Those attending this high-energy program will learn the basics as well as the advance concepts necessary to understand the practical grounding and bonding rules in the NEC for systems not over 600V.

Grounding versus Bonding - 7 Hours

Grounding Fundamentals

Purpose of Grounding and Electrical Fundamentals

Lightning Protection and TVSS Protection

Earth Grounding versus Equipment Grounding

Effective Fault-Current Path

Stray Voltage and Current

Proper Neutral-to-Ground connections

Grounding Fundamentals Cont.

Ground Loops

Objectionable Currents (Net Current)

EMI and RF Interference

System Grounding

Services Equipment – Section 250.24

Transformers – 250.30

Generators – Section 250.30

Separate Buildings and Structures – Section 250.32

Portable and Vehicle Generators – Section 250.34

Grounding Sensitive Electronic and Communications Equipment

The Grounding Electrode System

Ufer Ground

Grounding Sensitive Electronic Equipment

(Isolated and Signal Reference Ground)

Grounding of Communications Systems

Telephone, CATV, Satellite Dishes, Antennas

Grounding Data and Instrumentation Cables

What You'll Take Home with early registration

- CEU certificate
- *Mike Holt's Illustrated Guide to Grounding versus Bonding*

Orlando: June 6 and 7, 2008

Rosen Plaza Hotel
